

Dirt and Buggy Build-a-Bug

Dirt and Buggy love to study bugs!
They also love using their imaginations...

Can you combine YOUR bug knowledge + YOUR imagination to create a bug the world has never seen before? Think about things like...

- How many legs will it have?
- How many eyes?
- Will it have spots or stripes, or something else?
- How will it move?
- How does it eat?
- What will you name it?

You can build your bug out of all kinds of materials like:

- construction paper
- cardboard
- pipe cleaners
- coffee filters
- craft sticks
- glitter
